

Airport Stats

We continue to see stable numbers where air passengers are concerned, compared to 2023. Year to date we are on par with last year, with a small increase of 346 passengers. August was ever so slightly down compared to August 2023, however, it should be noted that the 1% decrease equates to 366 people.

UK passengers are up 1% compared to August 2023, and a significant reason for the total air passenger figures not being higher, is Jersey traffic. When looking at both Harbour and Airport stats, and per our narrative on the Harbour stats page, it demonstrates a shift in Guernsey-Jersey travel. While Jersey arrivals and departures by air are -15% YTD (7,497 pax), Jersey traffic by sea for the same period is +32% YTD (12,808).

The introduction of new London routes has seen this business continue to be shared between Gatwick, London City and Stansted and collectively London routes are up compared to August 2023 and YTD.

International travel is up for August by 25%, and 26% YTD, demonstrating the continued success of the more recently introduced routes, specifically Paris and Dublin.
